Objective

To dedicate my time, experience and expertise in machine learning, algorithms, and programming, to projects that matter to people's well-being.

Experience

Research Positions

2012-Present **Max Planck Institute for Informatics**, *Computational Biology and Applied Algorithmics Department*, Saarbrücken, Germany.
- Interpretable Sparse methods for cancer associations using an ensemble of sparse support vector machines (SVMs) - **Python**

2011-2012 **British Columbia Cancer Research Center**, *Terry Fox Laboratory*, Vancouver, Canada.
- Automated flow cytometry data analysis and visualization using dynamic programming, clustering, graph algorithms, and SVMs - **C++, R**

Professional Employment

2009–2011 **Kishware Software Group**, *R&D Department*, Tehran, Iran.
- Fraud detection in banks, *Project Manager* - **C++, Java, Oracle, Microsoft BI**
  - Behavioral clustering of bank employees in time to detect major behavioral changes as anomalies.
  - Behavioral clustering of customers according to their debit card transactions in time to detect changes as potential fraud.
- Operational intelligence, *Project Manager* - **C++, Oracle, MATLAB, Java**
  - Predict the terminal type of the next transaction of the customers using their transaction history.
  - Soft cluster customers according to their fuzzified transaction times and detect abnormal changes in cluster membership values.
  - Build a graph model to predict geographical location of terminals using customers' transaction history.

2008 **Orado Group**, Tehran, Iran.
Programmer in an educational/social network targeting Iranian secondary and high school students - **C#, T-SQL**

2006–2007 **Fidofa Software Group**, Tehran, Iran.
- Automatic trading system in futures stock market, *Programmer* - **Matlab, C#**
  - Implementation of Markowitz modern portfolio theory.
  - Implementation of GARCH indicator for stock market price.
  - Optimize parameters of company's existing trading systems using a genetic algorithm.

2006 **Sourena Software Group**, Tehran, Iran.
Programmer in a Persian text to speech project - **C#**

2005 **Tarrah Sarv System**, Tehran, Iran.
Programmer in a system handling all personnel and factory processes of a chicken farm - **Delphi, T-SQL**

Other Experience

2009 **University of Tehran**, *Mining Department*, Tehran, Iran.
Predicting Compressional and Shear Wave Velocities in dam sites in south west of Iran having sparse samples taken from the site before construction of dams using an adaptive Neuro-Fuzzy Inference System model - **Matlab**

2006 **University of Tehran**, *Management Faculty*, Tehran, Iran.
Semi-dynamic recommendation system for semi-dynamic retail store/ad-based websites using singular value decomposition and a genetic algorithm - **C++**

2005 **Tehran Polytechnic**, *Computer Engineering Department*, Tehran, Iran.
Power efficient semi-random message passing and routing algorithm for ad-hoc mobile sensor networks - **C++**

2002–2005 **Tehran Polytechnic**, *Rescue Simulation League, Robotics Lab*, Tehran, Iran.
7th place, world cup 2002 Italy
5th place, world cup 2005 Japan
Fire brigades and police forces - **C++**
  - Clustering of the buildings of the simulated world using self organizing map.
  - Program a strategy accordingly to find the best order of the buildings to be extinguished by fire brigades.

Teaching Positions

2011 **Lecturer**, *Introduction to Programming*, Department of Fundamental Sciences, University of Tehran, Tehran, Iran.

2006 **Teaching Assistant**, *Introduction to Graphics Programming in C*, Department of Mechanical, Civil, and Texture Engineering, Tehran Polytechnic, Tehran, Iran.

2006 **Teaching Assistant**, *Data Structures and Algorithms*, Department of Math and Computer Science, Tehran Polytechnic, Tehran, Iran.

2005 **Teaching Assistant**, *Compilers*, Department of Math and Computer Science, Tehran Polytechnic, Tehran, Iran.

2004 **Teaching Assistant**, *Micro Processors*, Department of Math and Computer Science, Tehran Polytechnic, Tehran, Iran.

Education

2012–Present **PhD (cont.) in Computer Science/Bioinformatics**, *Max Planck Institute for Informatics, Computational Biology and Applied Algorithmics Department*, Saarbrücken, Germany,
Supervisors: Dr. Nico Pfeifer, Prof. Dr. Dr. Thomas Lengauer,
Dissertation Topic: Machine Learning in Cancer Diagnosis,
Degree anticipated: July 2016.

2011–2012 **PhD in Bioinformatics**, *University of British Columbia, British Columbia Cancer Research Center, Terry Fox Laboratory*, Vancouver, Canada,
Supervisor: Dr. Ryan Brinkman,
Topic: Automated analysis of flow-cytometry data.

2006–2009 **MSc in Computer Science**, *University of Tehran, School of Mathematics, Statistics, and Computer Science*, Tehran, Iran,
Supervisor: Dr. Abbas Nowzari-Dalini,
Thesis Topic: Finding DNA Motifs Using Bidirectional Recurrent Neural Networks,
GPA: 18.42/20.

2002–2006 **BSc in Computer Science**, *Tehran Polytechnic, Department of Mathematics, and Computer Science*, Tehran, Iran,
Thesis Topic: Design and Implementation of a Genetic Algorithm to Solve Time Table of a School,
GPA: 15.98/20.

Service

2015 **Chemistry, Physics, and Technology Section Representative**, *PhDnet steering group*, Max Planck Society, Germany.

2012 **Bioinformatics Representative**, *College for Interdisciplinary Studies Graduate Student Society*, University of British Columbia, Vancouver, Canada.

2012 **"Bioinformatics" and "British Columbia Cancer Agency Graduate Student and Post Doctoral Fellow Society" representative**, *Graduate Student Society*, University of British Columbia, Vancouver, Canada.

Computer Skills

C, C++, Python, Linux
C#, Java, R, Matlab, T-SQL, PL/SQL
Oracle, MySql, MS-SQLServer, SSAS

Languages

Persian **Native**
English **Fluent**
German **Intermediate (∼B1)**
